

Computing: Google Slides

Key vocabulary

file	how information is stored on a computer
folder	an area that holds one or more files
sharing files	allowing other people to view or edit your files
presentation	final slideshow that is ready to be viewed
Speaker notes	Key words and notes when using a presentation

We are building our knowledge from Google Slides in Year 3

Key knowledge

Google Drive is used to store files and needs to be organised to help users find files easily.

Drive

Google Slides can be used to make presentations/slideshows.

Slides to make it:

A slideshow is made for an audience so it is important

- visually appealing
- easy to read
- communicate carefully-selected information
