

Key vocabulary

Sprite 	A character or computer graphic.
Instructions	Telling someone or something what to do.
Variable	Something that can change.
Select	To carefully choose a colour or tool that is most suitable.
Edit	To make changes to something I have already done.
Direction	The course that the sprite moves.
Command	A single instruction.

Key knowledge

I can use the arrows to give the sprite a command.

I can make changes to the instructions that I give the sprite if it goes in the wrong direction.
