

Key vocabulary

cosmology	the study of the origin of the universe
Big Bang	a cosmic explosion which started the creation of the universe
evolution	A theory about the way that living things have changed and developed over time

Key knowledge

Genesis 1 tells the story of the creation of the universe. Christians believe that God is the ultimate creator.

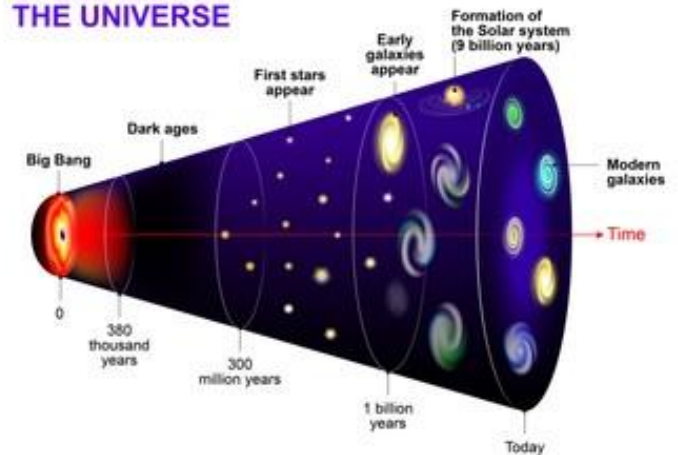

It can be interpreted in different ways by different people, depending on their beliefs.

Some Christians believe creation and science are conflicting, while other Christians believe complementary.

Scientists who study **cosmology** believe that the universe was created from the **Big Bang** which happened 13.8 billion years ago.

The theory of **evolution** explains that all living things that exist today have evolved over time.

EVOLUTION OF THE UNIVERSE

This builds on our learning about 'The Creation Story' in year 3.

This will help our learning later in year 6.
