Information about the School Nursing Team

Dear Parents and Carers,

Every school has access to the services of a School Nursing Team. Their role is to provide advice on the health of children as it relates to their educational needs. This can include eating habits, behaviour, sleep routines and toileting.

The School Nursing Team will provide you with a health questionnaire for your child, usually within the first term of your child starting school. This will give you the opportunity to raise any concerns you may have about your child's health.

As your child progresses through school, should you have further concerns for which you would like support and advice, the School Nursing Team can be contacted either via school or by telephoning their Admin Hub on 0300 333 5352.

Further useful information on preparing your child for starting school can be found on the Torbay and South Devon NHS Foundation Trust website:

<https://www.torbayandsouthdevon.nhs.uk/services/health-visiting-and-school-nursing/starting-and-moving-schools/>

<https://www.pacey.org.uk/working-in-childcare/spotlight-on/being-school-ready/>

Yours sincerely,

Kate Lee (Mrs)
Head of School
