

# Science: Animals including Humans

## Key Vocabulary

tail		beak	
fur		claws	
wings		paws	
fin		hooves	
scales		feathers	

eye

ear

finger

tongue

nose

sight

hearing

touch

taste

smell

## Key knowledge

- Animals vary in many ways, having different structures e.g. wings, tails, ears etc.
- Animals have different skin coverings, e.g. scales, feathers, hair.
- Key features can be used to identify animals.
- Animals eat certain things so some eat other animals, some eat plants and some eat both.
- Humans (and other animals) find out about the world using their senses.
- Humans have 5 senses. These are linked to particular body parts.

### Mammals

human

mouse

dog

cow

### Birds

penguin

chicken

flamingo

robin

### Fish

goldfish

tuna

shark

eel

### Reptiles

snake

tortoise

lizard

alligator

### Amphibians

frog

toad

newt

salamander

We are building our knowledge from Understanding the World (Reception).

This will help us learn about Animals including Humans (Year 2).
