Design Technology: Year 5 Christmas Stockings -Textiles

Year 5

Key vocabulary

seam allowance	the area between the fabric edge and the stitching line on two pieces of material being sewn together
wadding	a soft material used for filling a space
reinforce	to strengthen or support an object or material
press studs	a small fastener used on clothing or fabric
pinking shears	shears with a serrated blade, used to cut a zigzag edge in fabric
right side	the side of fabric that will face outwards on the finished product
wrong side	the side of the fabric that will face inwards on the finished product

Key knowledge

A 3-D textile product can be made from a combination of accurately made pattern pieces, fabric shapes and different fabrics.

Fabrics can be strengthened, stiffened and reinforced where appropriate.

Wadding can be inserted in-between two pieces of fabric to create volume and texture.

Knots in the thread can be hidden from view by ensuring they are on the 'wrong side' of the fabric.

Openings in fabric can be attached using a variety of fasteners.

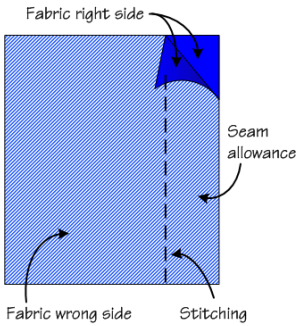

Press studs

Buttons

Velcro

We are building on our knowledge from Year 3 making story bags
